Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Acknowledgments

1. Acknowledgment is made of the amendment filed 10/14/04.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Iwase (US 6,255,008 B1).

Iwase discloses an electric vehicle comprising a fuel cell system 36 for generating power, a motor 46 for driving a vehicle, a controller 20, a battery 40 for storing power from said fuel cell, an accelerator pedal sensor 22 for measuring a time average (or differential of) electrical load required for running the vehicle, and a state-of-charge (SOC) sensor 42, the SOC sensor measures the charge of the battery, and the controller selectively switches on the fuel cell in response the predetermined values of both the measured electrical load and SOC values being above and/or below a predetermined values, such as 60% SOC (col. 9, line 47), as shown in figures 1-3 and recited in columns 4-10.

Art Unit: 3618

With respect to claims 5 and 6, the fuel cell system of Iwase would work during idle and stopped conditions because the battery would still be supplying power to the vehicle.

Response to Arguments

4. Applicant's arguments filed 10/14/04 have been fully considered but they are not persuasive. With respect to the applicant's arguments concerning Iwase, The fuel cell of Iwase would operate at a constant load if the SOC remained at a constant level. The claims fail to define over the Iwase and the rejection is made final.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
